

## Correspondence

### BOXVILLE.

Lilly Kurz returned home Friday from Dakota, where she has been visiting for several weeks.

John I. Skurdahl returned home from the Warren hospital last Thursday. Mr. Skurdahl, though not entirely well, is looking quite improved.

Nels Peterson, formerly of this place, but now of Montana, spent last week in visiting friends and relatives in this town.

Among those from Boxville, who attended the funeral of Halvor Olson at Alvarado Saturday, were Mr. and Mrs. Carl Danielson and Dudley Cheney.

Mrs. Sorenson was helping Mrs. Danielson last week.

Miss Josephine Bourque visited with Mrs. Peter Kurz from Friday until Sunday last week.

Charley Christenson went to Morris the first part of the week, along with Wm. Porter.

Nels Sorenson has been helping Dudley Cheney for a few days during the absence of Charley Christenson.

Peter Kurz went to the Warren hospital, Friday, to undergo treatment for an ailment of a long duration.

Wm. Porter and family moved to Morris, the first part of last week. We hope they will have good luck in their new home.

Anton Knutson and family moved to the Gilbert Farm, the latter part of last week.

### WEST OF ARGYLE.

A mild form of scarlet fever is going the rounds along Red River. Gunda Paulson being the exception. She is having a hard struggle with the disease. There having been five down at once in the Paulson family.

Ole Tverstol has recovered from a seven week's siege of typhoid fever, but his nurse, Olga Nelson, is a victim and is quite poorly.

Chas. Cronkhite has just had a good demonstration of the efficacy of good paint, in his deal with a home dealer in a grain elevator, it being covered with snow at the time of purchase. He believed it to be as represented, with a new horse power; after digging it out of the snow it was old and almost worthless, but painted in first-class shape. He got the lesson while young and as it only cost him \$55.00, it may prove a cheap one and should teach him not to buy a pig in a poke. He declares he will buy his next one from Sears & Roebuck.

Nels Malm and Chas. Cronkhite are putting up ice.

Spring will find plenty of rough feed still on hand.

The whirr of the fanning mill is heard as well as the click of the manure spreader. Geyer Farm has over 800 loads on its acres, with a view of keeping right on.

### VEGA.

Tuesday, March 14, '09.—Well, today is election day; everybody is voting.

Spring weather has at last come again. March started with thawing, and has kept it up so far, and hope it will keep it up, too.

News are scarce around here as the correspondent has been busy at work getting ready for seeding, which will soon be here.

Miss Rena Berg was seen coming off the train last Friday, after another week's stay at Warren.

Martin Fering and Misses Lydia Lindberg and Clara Christenson, of Alvarado, made a pleasant call at Carl Bergan's last Sunday night.

Miss Lydia Wahlh came home last Wednesday, after some week's stay at Warren.

Nels Markuson arrived home last Monday, after a week's stay in Alberta, Canada. He says it is a good farming country, and he will leave in the fall again. He will be joined by many other farmers from around here, who will take homesteads there.

A party was given at Berg's last Sunday afternoon, though we think it was a Sunday school.

Chas. Cheney was seen out driving, last Saturday.

Hugh Ferguson made a business trip to Warren yesterday.

Carl Holt, the Watkins' agent, was seen around here lately selling remedies.

Mrs. Carl Bergan and son, Arthur, and Miss Ragna Bergan, visited at Berg's, Tuesday afternoon.

There were quite a few teams at the late Olson's funeral last Saturday. Between 50 and 55 teams. A. T. U.

We say without hesitation that DeWitt's Kidney and Bladder Pills are unequalled for weak kidneys, backache, inflammation of the bladder and all urinary disorders. They are anti-septic and act promptly in all cases of weak back, backache, rheumatism and rheumatic pains. Accept no substitute. We sell and recommend them. North Star Drug Store.

### NELSON PARK.

March 8, 1909.—Rev. A. J. Ryden and Ole Stromlund went out to Strathcona last week.

John Johnson is home again after a few weeks absence.

We have heard that Robert Neslund and G. N. Wilson will go to Canada to look up some land.

Ida Johnson is expected home again this week. She has been teaching in the eastern part of the county.

The Misses Nora Nereson and Annie Benson walked quite a long ways to take in our debate last Friday. They said, they enjoyed both the walk and the debate, so we hope to see them out here again.

Mr. Garvin, the salesman representing Gowan-Peyton-Lurhy Co., of Duluth, was out here on his regular business trip last week. He said he was surprised at seeing our local merchant have such a rushing business. It shows that Englund is still wide-awake.

The Young Peoples Society of the Lutheran church met again last Sunday, in the church, and the meeting was well attended. They will meet again on Sunday, March 21. Here's success to them!

Martha Lofquist was pleasantly surprised by some of her most intimate friends on Tuesday of last week, the occasion being her 20th birthday. The crowd came there about 9 o'clock P. M., and remained until after midnight. A dainty lunch was served about 11 o'clock. Mr. Kongsvig then handed her a little present from the visitors, after which games were played and some music and songs were rendered.

### Debating Contest.

The basket social for the benefit of Englund school, which we mentioned some time ago in our "news notes," will be something more than a mere basket social. District No. 15 has challenged this district for a debate. This debate will be held in the Englund Hall, on Saturday night, March 13th, at 8 o'clock. The subject is,—"Resolved: That the mind gains more knowledge by observation than by reading." District No. 15 will speak on the affirmative, and the negative will be defended by district No. 112. A few musical selections will be rendered, besides some recitations and speeches. After the baskets are sold, the crowd will be given a good social time. Don't forget the date.

### BIG WOODS.

March 9.—It looks as the spring were already making itself manifest in these parts. That's what we want now, an early spring.

Mr. M. L. Hillegoes left last Monday for Grand Forks, N. D., to transact business.

The last report from the home of Geo. Paulson, is to the effect that slight improvements have been made. Miss Gunda Paulson has been very low with scarlet fever for two weeks, having been unconscious a large part of the time. The disease having settled on the kidneys, has made it a very hard case, but we are glad to note that she is improving. Master Bennie, has also taken sick with the same disease and is confined to his bed.

Chas. Amundson, our prominent merchant, transacted business in the village of Oslo, the fore part of the week.

Sherman Card was in Oslo Monday, to grind feed.

Oscar Amundson is rapidly recovering from the accident he had a couple of weeks ago. While chopping wood his ax glanced and struck his toe, ripping it open along the top clear to the bone. Luckily a doctor was on hand to dress it and now it is healing rapidly. Oscar, however, is lamenting the loss of his pet corn.

Andy Storey had the misfortune to lose one of his valuable horses last week.

Some of our young men are trying their luck at mustache raising. They look weak, but are visible to the naked eye just the same.

Auction Sale on the farm of C. A. Westberg, section 31, town of Bloomer on March 26th, 1909, at 10:00 o'clock A. M. I. N. Lodoen.

Harrow Carts at W. F. Powell & Co.

## J. W. THOMAS

We also have cedar fence posts and telephone poles on which we can save you money. Write us at once if in need. Sjoborg Bros., Roseau, Minn.

## LIFE AND WORKS OF ABRAHAM LINCOLN, FARM, STOCK AND HOME ONE YEAR

—AND—

## WARREN SHEAF One Year for \$2.90

Six Volumes—2000 Pages—Cloth Binding—Gold Back Stamps, With Introductions and Special Articles by Theodore Roosevelt, William H. Taft, Joseph H. Choate, Charles E. Hughes, Robert G. Ingersoll, Henry Watterson, and others.

Lincoln's literary style has been the wonder of critics. Its qualities are supremely shown in the Gettysburg Address and the Second Inaugural, but are far from being confined to them. He had been studying expression from the Gentryville days when he borrowed books for a circuit of fifty miles, and made long extracts from them with a turkey-buzzard pen and brier-root ink.

The centennial year of 1908, with its tributes and celebrations, has stimulated popular interest in Lincoln. It is wholly fitting that his biography and works should be made available to all—presented in an attractive and handy form on terms that place them within reach of the most modest purse.

No other set similar to the one here described is to be had. These little volumes give an authentic, accurate text, embodying the results of late researches. They also give analyses and estimates by men eminent in journalism, diplomacy, oratory, and political counsel. To hear the eulogies by Ingersoll and Watterson, many would have been glad to pay more than the price of this truly priceless collection. Get these books now, and by their purchase mark a great occasion.

A rare feature of this set is that Judge Douglas' speeches are given, as well as Lincoln's, in their wonderful debate. Remember, this is not a cheaply gotten up, poorly printed set of books. The type is large and clear. The paper white, and printing on one side does not show through and make it hard to read. Remember, it is cloth bound. Comes to you in a neat box. Is an ornament to any library, no matter how fine.

POSTAGE OR EXPRESS IS PAID BY US.

### Something About Farm, Stock and Home.

We are willing to have you compare FARM, STOCK & HOME, Minneapolis, Minn., issue for issue, with any agricultural paper in the United States. It was started in 1884, and has been continuously under one management ever since, and now has a circulation of 100,000. It has a corps of editors surpassed by no paper in the country.

Prof. T. L. Haecker, whose revolutionary discoveries in the science of feeding for milk and butter has put him at the head of the world as a dairyman, has charge of the dairy department.

Mr. A. D. Gaumnitz, Assistant Professor of Animal Husbandry at the Minnesota Agricultural College, has charge of the swine and sheep departments.

Mr. C. L. Grimsby, one of Iowa's most successful farmers, contributes to the general farm department.

Prof. Harry Snyder writes on the upbuilding and saving of farm fertility. In addition to these, there is a staff of other contributors, all practical farmers, who are ever striving to make FARM, STOCK & HOME the best paper of its kind.

It has the best and strongest home department of any agricultural paper published. Its boys and girls column is bright and interesting. It is a paper for every member of the family. No liquor, mining investment, patent medicine, stock food or any fraudulent or misleading advertising admitted to its columns.
